Preparing Learners For A Changing World

How long before they're making their own decisions?

The future isn't what it used to be

Deloitte..

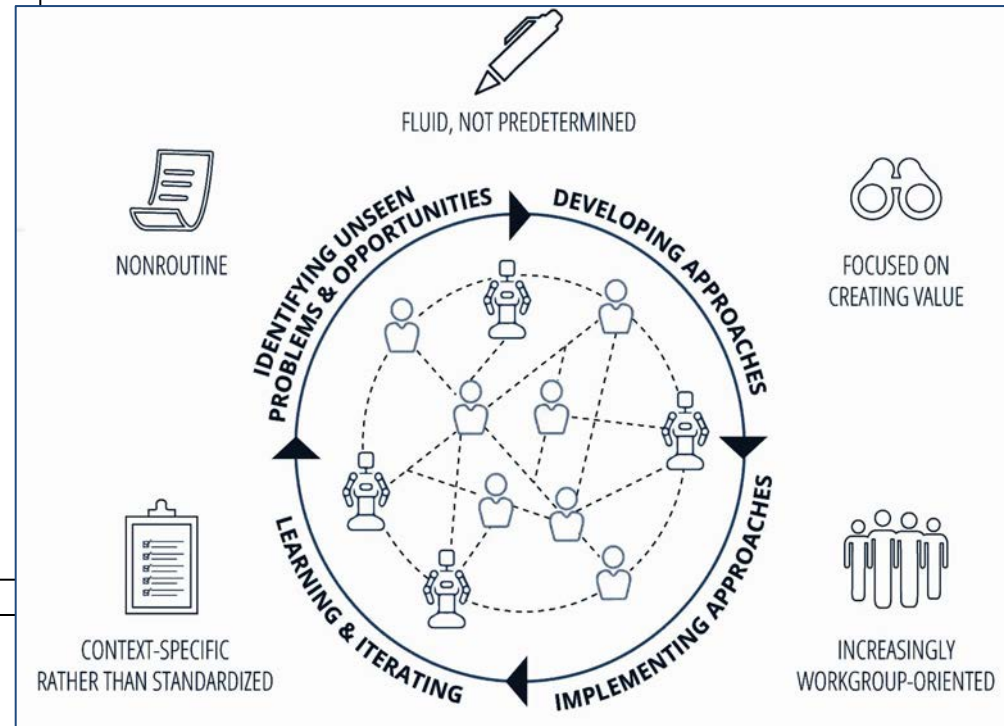

3rd October 2019

By 2025...

- 43% of US workforce will be from the gig economy
- 57% of jobs are likely to be automated with production quality controlled by AI

Dell, 2018

85% Of jobs that will exist in 2030 haven't been invented yet....the employment market will be characterised by adaptability, flexibility, creative thinking and shared learning.
